Ninon de l'Enclos, 1707.  
Chopin, 1849.

Burgoyne captured Saratoga, 1777.  
Sebastopol bombarded, 1854.

## THE IMPORTANCE OF THE COMMISSION.

Dr. Joseph B. Whiting, of Janesville, member of the commission appointed by President Harrison to carry out the provisions of the act of congress of last winter which provides for the relief and civilization of the Chippewa Indians in the state of Minnesota, gives us some interesting points in connection with the working of that commission. It is one of the most important Indian commissions ever organized by an act of congress, and a brief outline of its work will not fail to be of special interest.

There are ten distinct tribes of the Chippewa, and many sub-divisions of tribes and the population is somewhere in the neighborhood of 8,000. The work of the commission is to take a proper census of the tribes by securing the names of all persons connected therewith. This is a very difficult piece of work because the tribes and sub-divisions are greatly scattered, and there is likewise much annoyance and delay in obtaining the correct names in writing of all the members of the various tribes. It will be necessary to secure the consent of two-thirds of all the male adults of the Chippewa to bind a relinquishment of all their lands to the government of the United States. Some four million acres of the Chippewa reservation were relinquished in July, and there is something like one million acres more to be transferred to the government.

The importance of this relinquishment of the Chippewa reservation to the United States will be readily seen when it is known that in it is one belt of timber about 200 miles long and some 40 miles wide, in which an ex was never heard. There are no more valuable pine lands in all the north-west than those which belong to the Chippewa reservation. The other lands are excellent for agricultural purposes, and being supplied with rivers and lakes will make them all the more valuable for farms.

The work of the commission must of necessity advance slowly for the reason already given—that of the tribes being greatly scattered, and a correct census being required by the government. To reach certain bands of the tribes it is necessary to travel hundreds of miles, sometimes by wagon and other times by canoe. It is expected that the commission will have to go to the Fond du Lac reservation this fall, which will be done in a steam tug over one hundred miles from Duluth on Lake Superior to Grand Port reservation. This must be made in a tug which is the only craft plying between these points; and at this season of the year the passage at best is a perilous one because of the shallow water and the strong winds. Then a ride to Rainy Lake by some 100 miles to the northwest must be made in a canoe, and a return to Duluth must be made in the same way. Whether this difficult and perilous trip shall be made this fall depends upon the orders from the secretary of the interior.

When this season and relinquishment of the Indian title to all these lands have been made through the agency of the Chippewa commission, the land will be surveyed the same as other public lands, and will then be put upon the market. The pine lands shall be thoroughly examined, and their value shall be based upon an estimate made by competent persons, which shall not be less than \$3 per 1000 feet board measure.

The money accruing from the disposal of the lands shall be placed in the treasury of the United States to the credit of the Chippewa Indians in Minnesota which shall draw an annual rate of interest of five per cent. payable annually for the period of fifty years. The law thus provides:

The congress may, in its discretion, from time to time, during the said period of fifty years, appropriate, for the purpose of promoting civilization and self-support among the said Indians, a portion of said principal sum, not exceeding five per centum thereof. The United States shall, for the benefit of said Indians, advance to them as such interest as aforesaid the sum of ninety thousand dollars annually, consisting from the time when the removal and allotments provided for in this act shall have been made, until such time as said permanent fund, exclusive of the deductions hereinbefore provided for, shall equal or exceed the sum of three million dollars, less any actual interest that may in the meantime accrue from accumulations of said permanent fund; the payments of such interest to be made yearly in advance, and in the discretion of the secretary of the interior, may as to three-fourths thereof, during the first five years be expended in procuring live stock, teams, farming implements, and seed for such of the Indians to the extent of their shares as are fit and desire to engage in farming, but as to the rest, in cash; and when-over said permanent fund shall exceed the sum of three million dollars the United States shall be fully reimbursed out of such excess, for all the advance of interest made as herein contemplated and other expenses hereunder.

One can see from this brief account of the duties of the commission what important results may come therefrom. The commission consists of three members, but so far ex-Governor Rice, of Minnesota, and Dr. Whiting have done the work. The doctor is the disbursing agent for the commission, a position which has attached to it very great responsibilities.

## TWO GREAT EMPIRES.

In the discussion of building up a trade between the United States and Central and South America, it is important

to understand the real meaning of the great states south of this country. When we talk about Brazil or the Argentine Republic, very few will suppose that the former is nearly the size of the United States, and the latter is fully as great in extent as all of this country between the Mississippi river and the Pacific coast. Just look, for instance, at the table of square miles and population of the states composing Central and South America:

	Area in square miles.	Population.
Salvador	7,225	6,113,291
Pera	92,000	2,940,946
Paraguay	91,970	270,000
Venezuela	625,000	2,100,000
Nicaragua	50,270	1,000,000
Uruguay	72,150	632,250
Ecuador	282,500	1,000,000
Brazil	2,190,000	14,000,000
Mexico	742,140	10,447,974
Guatemala	46,000	1,300,000
Argentina	3,800,000	3,800,000
Bolivia	720,000	1,000,000
Costa Rica	23,000	100,000
Chile	300,000	1,000,000
Colombia	304,778	3,875,000
Totals	7,900,144	45,715,778

Here is an area of nearly eight millions of square miles, while in all the United States there are but 2,954,441. Taking Brazil and the Argentine Republic with whom the United States is anxiously desiring to establish business reciprocity and what mighty empires they are in area! Combined they are double the size of the United States.

To be sure, these great states have an immense trade. The exports and imports of these countries last year were as follows:

	Exports.	Imports.
Salvador	\$ 3,310,000	\$ 3,270,000
Pera	8,201,000	3,855,000
Paraguay	1,985,273	2,255,569
Venezuela	10,710,245	8,245,000
Nicaragua	2,185,000	1,311,100
Uruguay	18,100,000	10,500,000
Ecuador	1,680,222	7,794,516
Brazil	14,730,319	11,251,913
Mexico	48,855,000	39,850,000
Guatemala	628,100	1,231,401
Argentina	84,120,000	117,342,128
Bolivia	726,725	425,000
Bolivia	8,000,000	8,400,000
Chile	57,400,709	48,930,832
Colombia	12,700,000	8,414,719
British Guiana	2,751,999	1,131,371
Totals	\$41,378,197	\$41,906,132

The countries maintaining steamships by subsidies get the lion's share of this trade. How much did the United States get? The official figures from Washington will answer that question in a fashion that is not a credit to this country:

	U. S. imports	U. S. ex-ports
Argentina	\$ 5,902,000	\$ 6,643,000
Colombia	4,880,000	5,023,000
Costa Rica	1,000,000	1,000,000
Bolivia	200,000	200,000
Brazil	10,000,000	10,000,000
Venezuela	10,000,000	10,000,000
Uruguay	2,710,000	1,450,000
Ecuador	1,000,000	1,000,000
Chile	2,800,000	2,430,000
Kenador	1,110,000	810,000
Central America	1,000,000	1,000,000
Mexico	17,220,000	9,867,000
Totals	\$109,305,000	\$43,747,000

Here is a balance of trade against us of sixty millions! It has been said that since 1861 the United States has bought of these countries two billion dollars worth of goods, and has sold in return only \$900,000,000 in that time. It is about time for this country to wake up and secure its share of the profitable business with Central and South America.

## SHE LOVES EXCITEMENT.

For That Begonia Girl Makes a Practice of Stealing Horses.

At Parkersburg, W. Va., recently occurred the trial of a 17-year-old girl named Etta Robinson, whose life for the past six months has been full of sensations. The charge against her was horse-stealing, and the circumstances of the crime are very romantic. Six months ago she was visiting her brother, a farm hand of Thomas Handley, the latter being a wealthy real-estate owner. One morning Etta was missing and so was a fine horse. After a search of some days the horse was found in the girl's possession. While her captors were debating what to do with her Etta dashed into the Ohio river, still on horseback, and endeavored to swim across. She was again captured and placed in jail, but broke out and returned to her brother. Mr. Handley took pity on her youth and refused to prosecute. A short time after another horse was missing, which was tracked to the Kenawha river and later found on the other side in possession of Etta. A second time her youth protected her from prosecution. Six weeks later she stole a horse from Lewis Losley, was pursued across the Ohio, captured and brought back to the Putnam county jail, where she was confined several weeks, when, gaining the confidence of the jailer, she escaped, stole his horse and fled. She was again captured with the horse in her possession. The young adventurers only steals from motives of excitement. Her youth, beauty and general excellence in many ways have created a sympathy in her favor, and some of the most prominent citizens of Putnam county are interesting themselves in securing her release.

## SOLDIER AND CHRISTIAN.

A Minister in the Banks Who Would Not Shoot.

There is a member of Company I of the Forty-first Georgia regiment living in this county, says the Herald, Ga. Banner, who was in every battle fought by his regiment, in every skirmish in which his company engaged in, in every charge made by his command, and did not fire a gun. He was then, and is now, a minister of the gospel. He did not believe in killing men, and frequently charged the enemy with a yell, saw his comrades fall by his side, and whether routing the Union soldiers or being routed he would not shoot. He was always ready for duty—stood guard, remained at the picket post, and obeyed implicitly every command of his superior officers except to draw cartridges, load his gun and shoot. At New Hope church, on the retreat from Dalton, several rounds of cartridges were issued to the soldiers, and he took one, and a short time afterward he was struck by a spent ball, but not hurt. This remarkable man is a successful farmer and a splendid Bible Christian preacher, and is named Zachariah P. Hardgrove.

## Advice to Mothers.

Miss Watson's Sore Throat Syrup is said always to be good for children teething. It soothes the child softens the gums, allays all pain, cures colic, and is the best remedy for diarrhoea. 25c a bottle.

Buy your wares of Hoon & Snyder, 159 West Milwaukee street.

## THE CRONIN CONSPIRACY.

ANOTHER ARREST IN CONNECTION WITH THE CASE.

Alexander Sullivan's Private Secretary in Custody and His Employer's House Shadowed.

CHICAGO, Oct. 17.—Henry L. Stollenberg, the stenographer and private secretary of Alexander Sullivan, has been put under arrest by the prosecution in the Cronin case. Some dozen newspaper men were gathered around the office of the State's Attorney telling each other what they knew about Cronin and his murder when an unusual door at the other side of the room opened. It needed but a glance to recognize Stollenberg and two officers to recognize Sullivan and two officers.

There was at once a rush toward the offices across the hall. They were a little bit too late, however, and a few minutes later, it was acknowledged openly that Stollenberg was under arrest.

The connection of this man with Alexander Sullivan was too apparent to be missed by the crowd, and inquiry was made as to what the next step would be. Under the circumstances rumor took up the answer and the most sensational arrests were made. Names of some of the most prominent Irishmen of the city were pronounced openly as the next list to be found in the net of the State, but as the day wore away and the night came on and nothing was done it was very evident that this was a mistake.

Just what Stollenberg was wanted for nobody, save the State's counsel knows for certain, but there are two theories offered to account for his presence in the Criminal court building. One of these is that a connection has been established between him and "Johnny" Graham, now under indictment for jury-bribing. The other theory is that Stollenberg has been identified as the man who sent the telegram to Martin Burke's attorneys in Winnipeg, advising as to the preparations to be made for Burke's return to Chicago.

The probability upon which the workers are proceeding is that there is some truth in both these statements and that Stollenberg will have to explain his connection with both of those episodes in the Cronin case.

Another sensation was caused by the announcement that Thomas Kavanaugh had been called to the office of Alexander Sullivan. A reporter visited Mr. Sullivan to learn whether or not this was true:

"I have nothing to say," Mr. Sullivan said, "save that Mr. Kavanaugh was at my office. Our firm has been for a long time his legal advisor and he was to see me on legal business. If there is anything suspicious in that you have the fact. He certainly was at our office this afternoon."

On no other phase of the case would Mr. Sullivan express himself.

Capt. Schuttler received orders last night to detail a special officer to watch Alexander Sullivan at his residence at 375 Oak street. The reason for this order could not be ascertained, nor by whom it was issued. Officer Hyatt of the central detail was assigned that duty. Hyatt has done considerable work on the Cronin case and has been especially active of late in unearthing the attempted jury bribing.

Officer Hyatt went on duty last night with specific instructions from his chief. What these instructions were could not be learned except in a general way. Mr. Sullivan was not to be allowed to leave the city, and an attempt to do so should be authority for taking him into temporary custody.

It is said that John Graham and Alexander Sullivan have recently been in frequent conference at Graham's west of Sullivan's office and Sullivan visited Graham's office.

The lawyers for the prosecution say that they have no doubt that Mr. A. S. Trude knew nothing of the operations of his clerk, and exonerate him from any complicity in them.

Ex-Bailiff Mark L. Solomon has been released from jail on bail furnished by Thomas Nagle of 701 West Twelfth street and Mrs. Kate Bender of 608 Twenty-first street, two elderly people who said they were not relatives but only acquaintances of the prisoner. Free Smith hoped to secure bail yesterday, but his expected bondsmen did not appear. He refused to be interviewed, but his lawyer, Chester B. Bradley, strenuously denied that he has confessed or has anything to confess.

In the trial of the five prisoners before Judge McConnell no progress toward securing a jury was made.

## WANTED FOR MURDER.

A Sheriff Searching for Two Boys Charged With a Killing.

TERRE HAUTE, Ind., Oct. 17.—This afternoon Sheriff Hawkins of Sullivan county, reached Shelby in search of two boys named John Bullock and Oscar Mattox, aged 19, who are charged with the murder of John Farmer, aged upward of 70, at Shelby, twenty miles south of here, yesterday morning. Farmer kept a small oyster store. At 4 o'clock yesterday morning he was found dead on the street in front of his store. His skull was fractured. The boys were in the store late at night and are supposed to have quarreled with the old man. They fled this morning from Shelby, coming this way. The sheriff immediately came here, but a vigorous search failed to find them.

## ARRESTED FOR EMBEZZLEMENT.

Officers of a Minnesota Collection Association in Custody.

MINNEAPOLIS, Minn., Oct. 17.—The Northwestern Collection, Loan and Trust association made an assignment on Tuesday. Out of this assignment an alleged embezzlement case has grown. The men arrested are Walter S. Ballard, president of the association; A. Bostwick, treasurer, and L. W. Pierce, clerk, who really had nothing to do with the alleged crooked work. The complaint was by Brigham, Hopkins & Co., and the amount said to be embezzled is \$310.18.

## Killed Her Two Children.

SANTA ANA, Cal., Oct. 17.—This morning Mrs. Ellis I. Scholl was found in her house with a faithful cut on her throat and near her were her two children, a boy 5 years old and a girl 3 years old, also with their throats cut. She had murdered the children and attempted to kill herself. She will recover. A full case will be used. She was divorced from her husband, A. R. Scholl, three years ago, having the possession of her children awarded her. Recently Scholl entered suit to gain the custody of the children, and this was the cause of the crime.

## Mail Robbers Captured.

WASHINGTON, Oct. 17.—Chief Postoffice Inspector Rathbone has received information of the arrest of John J. Chambers, charged with stealing a registered package from the Beacon by Brigham, Hopkins & Co., and the amount said to be embezzled is \$310.18.

## Mailed Robbers Captured.

## AMERICAN BOARD OF MISSIONS.

A Sensation Caused by the Statement of Dr. Griffiths.

New York, Oct. 17.—The principal business of the second day's proceedings of the American Board of Foreign Missions was the reading of special papers from the prudential committee.

Dr. Tyler, a recently returned missionary from southeastern Africa, spoke of the work among the Zulus, and Dr. N. G. Clark, D. D., read a paper entitled "Twenty Years in Japan." The outlook in Japan, he said, was very encouraging. Buddhism and Confucianism had broken down.

At the afternoon session the report of the committee of fifteen was taken up upon the subjects of closer relation between the board and the church and of the recognition of corporate members. It was presented by Mr. E. W. Hatchford. He said that the committee had received from ministers, professors, and others replies to their circular in which 325 advocated a change, 25 opposed, and 30 expressed no opinion. Of those addressed 1,023 made no reply.

Upon the recommendation of the committee the by-laws were amended to make the President and vice-President ex-officio members of the prudential committee.

The Rev. Dr. Griffiths of Boston started a warm argument by saying that he wanted a change in order that the scandalous case of the missionary in China, who was a notorious fact, he said, that the examination of the board for candidates was simply a secret tribunal, which might completely ostracize a man and utterly ruin him by asking questions which they well knew he could not answer to his own heart. Such an act on the part of the board killed any enthusiasm which candidates might have for their work. If any man or woman appeared before the board and did not pass a satisfactory examination he or she was branded as a heretic. Such things were not consistent with the work of the board as a Christian body, and the speaker prayed God that the proposed changes might be made and that the present committee might be retained to do so.

Dr. Griffiths was applauded, and when the excitement began to subside the Rev. W. W. Meredith startled everybody by saying: "If this is not a Congregational foreign missionary society let us form one; that is, just as soon as we can start the wheels in motion. As a pastor, I want recognition. I cannot understand why it is that when any business is transacted by the board the chairman turns his back on me. The quicker this question is settled the better it will be."

It was decided to keep the committee another year.

## Episcopals Still at Work.

NEW YORK, Oct. 17.—In the house of deputies the report of special committees was taken up. The sentiment of that to which the memorial of colored clergymen was referred was divided. A majority and minority report were presented. Dr. Phillips Brooks, who presented the minority report, said in support of the church: "She knows nothing of the color of a man's skin." At 11:15 the house went into committee of the whole on the majority report of the joint committee on liturgical revision, and this occupied the remainder of the day.

## Y. M. C. A. Convention at Peoria.

PEORIA, Ill., Oct. 17.—The State convention of the Young Men's Christian association opened in this city Wednesday evening and will continue for four days. Of the 600 delegates expected 400 are already here, and the convention will be a success.

## Western Catholic Union.

ALTON, Ill., Oct. 17.—The twelfth annual State convention of the Western Catholic union met here Wednesday, with fifty delegates from different parts of Illinois. President Metzger of Quincy delivered the annual address.

## AWAITING A PROCLAMATION.

Admission of the Dakotas and Washington Soon to Be Announced.

WASHINGTON, Oct. 17.—The belief is general in Washington that President Harrison is about to issue his proclamation admitting the Dakotas and Washington to Statehood, omitting Montana because of the inability of the Territorial officers to certify the election to the President as required by law. At the White House it is said that the proclamation, although it has been prepared at the State department, has been laid before the President and that the delay is due to the contention in Montana. The President has made no statement as to what he intended to do, but in official circles the impression prevails that the proclamation will soon issue without Montana unless the result of the election there is very soon determined.

There are good reasons why the States of North and South Dakota and Washington should be admitted into the Union at once. The finances of these States are low and the Legislatures will be immediately called upon to make appropriations. The law authorizing the admission of the four States provides that the Legislatures may meet before the States are admitted, elect United States Senators and certify them to the President. The Legislatures may also, although they are not so authorized specifically, go into the preliminary work of debates and legislation, but nothing can be done in the way of legislating finally until the President's proclamation has been issued.

Although Gov. Mellette of South Dakota has been inaugurated as Governor of that State he has not relinquished his Federal powers as Governor of the two Dakotas, and he will continue to represent the government and draw his salary until the President has issued his proclamation and he has taken the oath as Governor of the State of South Dakota.

## South Dakota's Prohibition Law.

YANKTON, S. D., Oct. 17.—United States Attorney John C. Murphy says that the enforcement of the prohibition law may be impossible in South Dakota until three months after the adjournment of the Legislature. The constitution provides that no act shall take effect until ninety days after the adjournment of the session at which it passed, unless two-thirds of all the members shall otherwise direct.

O, MAMMA!  
NOTICE!

To Whom It May Concern:

Never having advertised any lies or falsehoods to the people of Rock county and city of Janesville, and not having had the pleasure of giving them any benefit since the days of "Sam & Pete," and for the past thirty years have attended to business so close that I have impaired my health and have got to retire from the clothing business. Now I want to reduce my stock so that my boys or some one else will be able and willing to take the store after the cost sale.

I Will Commence on Thursday, Oct. 17, 1889, to sell every dollar's worth of goods at cost in my store. I came here 42 years ago, to stay, and I am not going away the 1st of January, nor will my store be closed, but will be conducted by some one that

WILL - DEAL - FAIR - AND - HONEST with everybody who wishes to purchase goods from the house.

This is a Cost Sale that will be conducted on business principles, and you will not be Jewed, fooled or imposed upon.

**Hood's Sarsaparilla**  
Is a peculiar medicine. It is carefully prepared from Sarsaparilla, Dahlgren, Manuka, Dock, Pipsissewa, Juniper Berries, and other well-known and valuable vegetable remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla a curative power not possessed by other medicines. It effects remarkable cures where other preparations fail.

**Hood's Sarsaparilla**  
Is the best blood purifier before the public. It eradicates every impurity, and cures Scrofula, Salt Rheum, Boils, Pimples, all Humors, Dyspepsia, Rheumatism, Catarrhs, Rheumatism, Kidney and Liver Complaints, overcomes that tired feeling, creates an appetite, and builds up the system.

**Hood's Sarsaparilla**  
Has met peculiar and unparalleled success at home. Such has become its popularity in Lowell, Mass., where it is made, that whole neighborhoods are taking it at the same time. Lowell druggists sell more of Hood's Sarsaparilla than of all other sarsaparillas or blood purifiers. Fully druggists, 25 cents for 30. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

## FIFTY WERE INJURED.

## BAD RAILWAY COLLISION NEAR OMAHA.

## A Train Fatally Late at a Crossing-Victims of the Cincinnati Smashup-Variety Casualties.

OMAHA, Neb., Oct. 17.—About fifty people were injured at Gibson, near Omaha, by the collision of the Burlington & Missouri track of train No. 6, an east-bound local, and train No. 9, west-bound. Two engines, a chair car, and a combination car were demolished. Peter Roush, proprietor of the Tremont house in this city, died of his injuries soon after the wreck. The combination coach and the chair car were both crowded with passengers, all of whom were more or less injured. The chair car, after being overturned, caught fire, and many of the passengers were burned in addition to their other injuries. Those who had escaped comparatively unhurt added to the work of relieving their pain. The most seriously injured are:

HARRY S. WELLES of Omaha, member of the Richmond Drug company; badly cut and bruised.  
MARY BUTLER of South Omaha; dangerously hurt.  
CHARLES LAURE of Omaha; ear cut off, face cut, and body and legs bruised.  
E. MIX of New York; shoulder dislocated and leg bruised.  
FRANCIS ELDER of New York; representing the William Demuth company; bruised and it is thought internally hurt.  
FRED SCHULTZ of New York; head and face slightly cut.

J. FAIRBANKS of Chicago; legs bruised and shoulder hurt; not seriously injured.  
G. W. CHAFFEE of Boston; badly slightly bruised.  
ISAC TABOLD of Cincinnati; head and shoulder hurt; not seriously injured.  
J. KALISHER of New York; shoulder sprained and body bruised.

ROBERT H. HOLT of N. Y.; body and legs bruised and head seriously cut.  
ISAC W. ROOKS of Hartford, Conn.; body injured.  
Inspector LOVERIN of train No. 9; right leg bruised.  
Engineer MCCOY of train No. 9; slightly bruised.  
Engineer GILLESPIE of train No. 6; body badly bruised.  
Firemen HASKINS and MARTIN; slightly hurt.

Miss Butler and Charles Lauro are in the hospital, where it is expected that they will die. The others are at the various hotels. The colliding trains were scheduled to arrive at Gibson together at 6:45 p. m. Train No. 9, which is a "stub" train making connections with the Kansas City express, stops there to register. No. 9 was slightly behind. When the accident occurred it had just crossed the spur and the engine on No. 6 struck the end, hurling both engines and the two coaches from the track.

## THE CINCINNATI ACCIDENT.

## Condition of the Wounded—Cause of the Mishap.

CINCINNATI, Ohio, Oct. 17.—Hundreds of people gathered Wednesday at the scene of Tuesday's frightful accident on the Mount Auburn inclined plane.

Only a railing around the opening where the flying car stopped keeps the people back. Women are clearing the debris of the debris. The second car lies as it was left when it struck the bumpers. Its occupants barely had time to escape before the other car came crashing down by its side.

Miss Oskamp is still alive, and has once or twice shown some signs of returning consciousness, but the physicians cannot give any assurance that she will recover. Mrs. Hochstetter has been conscious, and her condition is improved, but her recovery is also extremely doubtful. Young McLean is in a fair way to recover, unless some hidden injury reveals itself.

Mrs. Russell Errett, who was instantly killed, was the last one to be identified, and this gave rise to several incorrect statements of the names of the dead. Mrs. Errett was the wife of Mr. Russell Errett, president of the Standard Publishing company. She lived at 243 Findlay street and was going to visit her mother at a house.

When Mr. Errett went home last night she had not returned. The possibility that she might have been hurt in the accident occurred to him, and he went first to the hospital and then to the morgue, where he found her mangled body.

James M. Doherty, secretary of the company operating the Mount Auburn incline, says that the cause of Tuesday's accident was a little piece of iron in the cut-off valve and was found Wednesday by the men who had taken the machinery apart. How it came there no one yet knows. It is the most serious of the surrounding machinery as far as has yet been ascertained. By occupying a space required for the rod to move in it so disarranged the machinery as to render it impossible for the engineer to shut off the steam.

**FATAL Wreck Near Lebanon, Ind.**  
LEBANON, Ind., Oct. 17.—A blacking Midland railway engine, carrying a force of workmen from here, collided Wednesday morning at Heath's station, five miles from this place, with a box car, which struck partly on the main and partly on the side track, and was derailed.

Sherman Moon of Chicago was crushed to death and Oliver Heath of Lebanon, and John Pich of Lexington, Ind., were badly hurt. All of the other passengers escaped harm or were but slightly injured.

**Two Fatal Crossing Accidents.**  
FRANKFORT, Ind., Oct. 17.—William Wickie, a farmer, while driving across the Vandalia railroad north of Flora, Ind., was struck by the north-bound passenger train and killed.  
Mrs. Charles Sipe and Mrs. Austin attempted to drive across the Monon railroad just north of this city, and were struck by a passenger train and fatally injured. Their horse was killed.

**Killed by an Elevator.**  
CINCINNATI, Ohio, Oct. 17.—Stanley L. Potter, a member of the firm of Miner & Rossiter, furniture manufacturers at 262 Race street, was struck by the descending elevator at the store, and instantly killed. He was 32 years of age and unmarried. He was the son of the Rev. S. S. Potter, and a nephew of Dr. J. G. Monford.

**THE LAW INVALID.**  
Indiana Dressed-Beef Act Declared Unconstitutional.  
INDIANAPOLIS, Ind., Oct. 17.—Judge Irvin of the Marion county Criminal court in a decision held that the dressed-beef act of the last Legislature is unconstitutional and directs the discharge of Philip Klein of the Chicago Dressed-Beef Company against whom the proceedings were brought with the understanding that the case should be pressed to the Supreme court with a view of testing the constitutionality of the law. This is the third decision against the act, which has been rendered in the nisi prius courts of Indiana.

**When the hair shows signs of falling be at once to use Dr. J. C. Davis' Vigor.**  
This preparation strengthens the hair, restores the natural color to gray and faded hair, and renders it soft, pliant and glossy.

**Very Unbecoming.**  
Lovely tints in the wrong place are ruin to their charm. A lemon colored complexion—the peculiar endowment of one—pales before the action of the hair pipe—is unbecoming. It suggests bile going astray, and the inference is correct. Pain beneath the ribs and shoulder blades, constipation, dyspepsia, furred tongue and sick headaches supplement this unsightly condition.

For liver complaint and its multifarious symptoms, Hostetter's Stomach Bitters is an infallible specific. It relaxes the bowels sufficiently, but without causing a run of bile. To the restoration of bile gives a due impulse, but banishes an excess of that seething colored principle from the blood. Sick headaches, sourness of the breath and fur upon the tongue disappear when it is used. It renders digestion perfect, the system against malaria, counteracts a rheumatic tendency, and remedies inaction of the kidneys.

## EXHIBITED BY ARTHUR.

## The Chief Engineer's Address to the Denver Convention.

DENVER, Col., Oct. 17.—The International Brotherhood of Locomotive Engineers opened its annual convention in this city Wednesday afternoon. Chief Arthur after welcoming the delegates and assuring them of his belief in the satisfactory results of the present convention, said:

"The present time represents a turning point in the history of the order, for it has become apparent that a feeling essentially radical has crept in and taken possession of a few of our members. This is dangerous and must be suppressed, for, owing to this, statements seemingly contradictory have crept out and become public which would never have happened had there been a oneness of thought and honesty of purpose. If a man's ability tends beyond that required by the brotherhood, then it becomes his duty to doff the begrimed habiliments of the mechanic and assume the position for which he is particularly gifted. To nurse his selfish ambition and scatter its seeds broadcast to take root in the imaginations of others is sinful and blighting in character." He admonished members to keep their personality intact and not allow false words to induce them to subscribe to laws which as soon as passed will make them recognize the necessity for repeal. All the business done at the afternoon session was the appointment of the committee on credentials.

**BITTER AGAINST THE KNIGHTS.**  
Report of the Executive Committee of the American Street Railway Association.  
MINNEAPOLIS, Minn., Oct. 17.—The American Street Railway association met in its eighth annual convention here. President Koper opened with an address. The report of the executive committee was a scathing denunciation of the Knights of Labor. The report begins by saying that the past year has seen almost the total collapse of the Knights of Labor organization, so far, at least, as that portion is concerned which attempted to dominate the street railway companies. After referring to the strike in New York and Brooklyn the report says the result has plainly taught the lesson that four men will not accomplish what can be secured by fast action when they are decided into thinking it excusable to enforce their desires by a heinous crime soon realize that their cause is an unholy one. The death knell of the Knights of Labor has been sounded because it has shown its unworthiness to live by reason of the crimes committed in its name under the direction of its leaders.

The self-respect of street railway managers has often been compromised by an insulting bearing toward them of the leaders of this tyrannical organization. The lessons learned will not be forgotten by this generation.

**The Brotherhood of Brakemen.**  
ST. PAUL, Minn., Oct. 17.—The whole of the morning's session of the convention of the Brotherhood of Brakemen was taken up with the submission and consideration of the grand officers' reports. The only one given to the public was that presented by the secretary. The report shows the number of lodges to be 315, with an aggregate membership of about 15,000. The total number of deaths is placed at 170 and the disabilities at 89. The total receipts placed at \$284,321.75, of which \$11,001 were contributed through the general fund and \$233,320.75 levied in assessments. The total cash disbursed was \$282,846.11, leaving a balance of \$1,965.25 on hand Sept. 1 last.

**KNIGHTS OF PYTHIAS.**  
Second Day of the Illinois State Convention—Strength of the Order.  
CHICAGO, Oct. 17.—The grand lodge of the Knights of Pythias of Illinois held its second day's session at Grand Army hall yesterday. Grand Master James W. Patterson presided. About thirty-three hundred delegates attended. The morning session was devoted to the reports of committees on law and supervision, appeals and grievances, time, mileage, and per diem, state of order, foreign correspondence, and the special committee on orphan's home.

The afternoon session was devoted to the election of the new grand officers, which resulted as follows: Grand chancellor, J. H. Kellogg, Freeport; grand vice-chancellor, Charles Scherer, Galena; grand appellate, F. C. Cook, Florida; grand keeper of the record and seal, H. P. Caldwell, Chicago, re-elected; grand master of the exchange, John Gabriel, Chicago, re-elected for the tenth consecutive year; grand recorder, John A. Metter, Chicago, re-elected; grand treasurer, W. A. Schmidt, Quincy.

Past Supreme Chancellor Van Valkenberg of Iowa and Maj.-Gen. James R. Canham were present and made speeches congratulating the order and its organization and numerical strength. Gen. Canham said the uniform rank of the order numbered and was superior in drill to the regular standing army. Thursday at 10 a. m. the new officers were installed and unfinished business was transacted.

**A MESSAGE FROM ROME.**  
Monsignor O'Connell Reaches Baltimore With Interesting News.  
BALTIMORE, Md., Oct. 18.—Monsignor Denis J. O'Connell, rector of the American college in Rome, arrived in Baltimore yesterday afternoon from New York. He was met by Cardinal Gibbons and others. He came in no official character, except that he delivers certain letters and verbal messages from the Pope and propaganda to Cardinal Gibbons. He said to a reporter that owing to the number of students they would have to build a new structure for the college at the Vatican, and that there is no probability of the Pope's retiring from Rome.

**National Board of Trade.**  
LOUISVILLE, Ky., Oct. 17.—The National Board of Trade met here Wednesday with about sixty delegates present. Francis Friley, who has held the position for twenty years and Secretary Hill were re-elected. Among the vice-presidents chosen are Gen. R. M. Howe of Chicago, S. T. Bowen of Indianapolis, and Henry M. Madril of Evansville. The Knoxville, Tenn., board of trade and the Commercial club were admitted to membership. The resolutions of last year were reaffirmed.

**No State Taxes in Wisconsin.**  
MADISON, Wis., Oct. 17.—Secretary of State Timme announces that after reviewing the condition of the State finance and considering the available funds in prospect from railroad licenses, etc., he is able to officially state that there will be no tax levied for general State purposes this year. The only taxes which the people will be called upon to pay will be the usual ones for educational purposes, care of insane in county asylums, etc.

**Knoon.**  
The transition from long, lingering and painful illness to robust health marks an epoch in the life of the individual. Such a remarkable event is reserved for the fortunate few who are restored to health by the use of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic, that it is so much as heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic, that it is so much as heard in praise of Electric Bitters.

Dr. B. MINOR, the eminent optician of Detroit, Mich., will visit every town in this county during the summer. Anyone suffering with weak eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the office will be promptly attended to. No extra charges for examining or visiting patients at their homes.

**Beecham's Pills act like magic on a weak stomach.**

## FIFTY MINERS KILLED.

## TERRIFIC EXPLOSION IN AN ENGLISH COLLIERY.

## A Pit Filled With Miners Completely Wrecked—Heartrending Scenes Witnessed About the Mouth of the Shaft.

LONDON, Oct. 17.—An explosion occurred in the Mussfield colliery in Staffordshire this morning. The day-shift workmen had come on duty and the mine was full of men. Fifty are known to have been killed and many more are in peril. The explosion was a terrific one, the shock being felt miles away. Many thought an earthquake had visited that part of the country.

Immediately after the great disaster occurred the opening at the mine was besieged by wives and relatives of the killed and entombed men, and there were many heartrending scenes. It was with difficulty that some of the frantic women with babies in their arms were prevented from throwing themselves down the shaft.

Hundreds of willing hands commenced the work of getting out the imprisoned men, and have found fifty dead bodies.

## NEWS FROM HAVANA.

**Smuggling, Stopped by Lawless Bands Continue to Plunder.**  
HAVANA, Cuba, Oct. 17.—Gen. Salamans' efforts to stop smuggling in the island have proved entirely ineffectual. The Governor-General is in a difficult position, as relying on his promises to increase the receipts of the Cuban treasury, the Spanish minister of the treasury advanced him about \$4,000,000, which was to be returned at the end of the last fiscal year. This closed, however, with a deficit of over \$8,000,000 in the budget.

Brigandage continues to spread on the island despite every effort of the Governor General and despite numerous arrests and executions. Several new bands have made their appearance and plundering and kidnapping between Matanzas and Santa Clara are continually reported.

The scarcity of laborers for planters has grown so serious that Gen. Salamans has at his own request been granted an appropriation of \$40,000 which will be applied to the transportation of 250 families from Spain to Cuba.

The recent heavy rains have hastened the maturity of sugar-cane that the crop will be harvested earlier than usual this year.

Seed plots in Vuelta Abajo are coming in splendid manner and tobacco growers anticipate a great crop next year. Contracts for electric light apparatus at Cienfuegos, Santa Clara, and Sagua have been concluded with United States parties. The Central railway station at Sagua was destroyed by fire the 5th inst. Loss \$75,000; no insurance.

**Cocoon trees at Baracoa are threatened with total destruction from a disease which has ravaged central and western Cuba.**

**Advice to Germany.**  
ST. PETERSBURG, Oct. 15.—The Novoe Vremya says that if Germany desires a firmly established peace it is indispensable that she shall cease to tolerate Austrian intrigues in Bulgaria. Peace will never be secured, the paper declares, until the cause of the present international trouble is removed.

**American Cattle at Liverpool.**  
LIVERPOOL, Oct. 17.—The arrivals of American cattle recently have been very heavy. The cattle sheds at Birkenhead are crowded beyond their capacity. Steamers have been waiting in the stream for days to discharge their cargoes, and the city authorities are urged to provide increased facilities for the traffic.

**Portugal's King Is Better.**  
LISBON, Oct. 17.—It was rumored last night that the King had expired, but bulletins were issued contradicting the report, and it was announced at an early hour this morning that his majesty was
